WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Print flat, 42 x 37 x 2 mm, outer face on the bed (smooth face out).
Button hole 10 mm round, centred 29.0 mm up from the lower edge.
LED window 3 mm round, 5.7 mm up, 4.5 mm toward the outer side.
Four screw holes 2.2 mm, countersunk 3.8 mm, at the corners: 3.3 mm in from the long sides and 3.3 mm in from the short ends.
Break the outer edges 0.5 mm so nothing catches on clothing.
Fit: lies on the tray rim; the button cap passes through its hole with 0.3 mm all round; four M2 x 6 countersunk thread-forming screws into the bosses, heads flush.
Check: the cap moves freely; the lid sits flat with no gap.
